

Engineer in Charge (Studio)

Overview

MeyerPro Inc. is one of the foremost providers of audio-visual services and broadcast solutions in corporate, entertainment and live events. The company has been bringing industry leading creativity, experience, and technology to the Pacific Northwest since 1984 and has continued to expand at an accelerated rate, servicing clients across multiple states from and abroad.

The EIC position is a multi-faceted, full-time position located in the greater Seattle area. The employee will be responsible for constructing and maintaining the equipment installed in a multicamera XR/AR studio, technical documentation, and integration of additional broadcast or Audio/Visual equipment. The position requires a professional understanding of broadcast cameras, video switchers and a deep understanding of video and audio signal routing as well as a comprehensive understanding of networking. The employee will maintain the studio/facility according to the standards set forth by the Company. It is the policy of MeyerPro Inc. to provide excellent customer service both internally and externally. Employees are expected to perform all of their duties and responsibilities in accordance with this policy at all times.

Responsibilities

- Ability to troubleshoot audio, video, and control system problems. (ie. Ross, EVS, Sony, Disguise)
